25mm Locking tank cock

Taps are typically chrome plated.

Flexible Hose Coupling Kit

25mm hose and connectors
50mm hose and connectors

A flexible hose must be used between the tank and all other plumbing or rigid pipe work.

Leaf Diverters

Leaf Eater Rainhead 80/90mm dual fit
Leaf Beater Rainhead 80/90mm dual fit

First Flush Diverter

90mm downpipe kit
100mm downpipe kit

Water Level Gauges

Level Devil Indicator

Ideal for small tanks (up to 1.8m high).

Levator

Simple, pulley and counterweight system with free hanging indicator beside the tank.

Level Devil

Dipstick

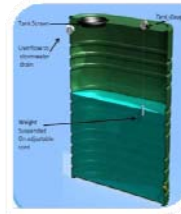

This is a floating pole type water level gauge, protruding above the tank roof.

Dipstick

Mechanical Tank Level Gauge

The Tank Gauge is a rainwater tank level indicator which ensures you are able to tell how much water is in your tank at a glance. Suitable for up to 2.5M depth

Wireless Tank Level Monitor

The Receiver of the Rain Alert can be placed up to 200 metres from the Transmitter on the tank. This means you can monitor the level of your tank/s from the comfort of your own home.

Tank Topup Units

Apex Rain Aid

Switching valve to control the back up water source on a water tank

Rainsaver

Automatic change over device that seamlessly switches from your rainwater tank and pump, to mains water supply, should you ever run low on tank water

Fire Protection

Firefighting Fittings

65mm Stortz x 50mm BSP FI Adaptor & Cap
50mm Fire hose adaptor HN64CF (SA only)
50mm Fire hose adaptor (VIC only)

Firefighting Pump

The BIA-HP15A pump is a light weight self-priming general duty engine driven pump. Supplied ready to operate, complete with hose fittings and suction strainer.

See separate .pdf document with a complete range of general pumps suitable for rainwater tanks.

Float Valves, trough valves

Single Action, plastic body, float valve, 25mm or 50mm

Double Action, plastic body, float valve, 50mm

Ball floats, 100mm Black or 150mm Orange
