Why choose Bushmans Tanks?

10 Year Guarantee
Our tanks are backed by a simple, non-pro rata 10-year guarantee. This means full coverage for the full term - not a reduced payout over time.

Made Locally
All our tanks are locally made to order at our AS4766 certified facilities across Australia in South Australia, Victoria, New South Wales & Southern Queensland.

Extreme Durability
Each tank is quality tested and built with UV stabilised poly, designed to withstand the harsh Australian temperatures.

Free Delivery*
With free standard delivery to most areas within 600km of our facilities, we make it easier and more affordable to choose a premium, Australian-made tank.
**Depending on tank sizes, some areas may require an escort, pilot or ferry fee.*
