*The AS/NZS 4766:2006 is the Australian Standard that specifies the design, materials, and manufacturing requirements for rotationally moulded (roto-moulded) polyethylene tanks. The ISO 9001:2008 & ISO 9001:2015 are international quality management system (QMS) standards. AS/NZS 1546.1:2008, is the standard for on-site domestic wastewater (septic) tanks only.
